

# THE ULTIMATE PROCESS FOR YOUR PRODUCTS- *POPE HYBRID DISTILLATION TECHNOLOGY*

**COMBINES SHORT DURATION, HIGH VACUUM WIPED-FILM  
EVAPORATION WITH EFFICIENT COLUMN FRACTIONATION**

**RESULTS: INCREASED PURITY, YIELD AND VALUE OF YOUR PRODUCTS  
TO LEVELS NOT PREVIOUSLY POSSIBLE!**

## **APPLICATIONS**

Flavor & Fragrance Concentration • Omega-3 Ester Separations • FAME Concentration • FFA Stripping • Deodorization • Decolorization • Biofuels to ASTM • Pharmaceutical & Nutraceutical Purification -- Many types of separations for heat sensitive: Fish, Citrus, Mint, Wood, other Botanical Oils, Fermented, Extracted, or Synthesized Products, Specialty Chemicals, Waxes, Lubricants, Essential Oils, Cosmetics, Monoglycerides, Etc.
